

The care you need can be right outside your door.

If you've been discharged after a hospital or rehab center stay, **Ohio Living Home Health & Hospice** is here to provide as much or as little help as you need as you recover. We provide the skilled services, under your doctor's direction, to help you reach your goals in the comfort of the place you call home.

Home health can help if you've recently had:

- Medication changes
- Increased weakness
- Change in cognition
- New to oxygen use in home
- Change in swallowing or speech
- Catheter

Home health can help if you need:

- Occupational, speech or physical therapy
- Skilled assessments and teaching
- Wound care
- Mobility training
- IV therapy and injections
- Intermittent catheterization
