

# FAMILY CENTERED. PHYSICIAN CONNECTED.

Ohio Living Ganzhorn Suites is a highly specialized memory care assisted living community committed to meeting the evolving needs of residents with Alzheimer's disease and other forms of dementia. Our personal, heartfelt determination to make a difference in the lives of those we serve is what makes our community different from any other memory care community you'll find.

At Ohio Living Ganzhorn Suites, we understand that each resident experiences a unique journey, so our care and programs are specifically tailored to fit each resident's individual needs, strengths and abilities. Our goal is to set new standards for Alzheimer's and dementia care in a compassionate setting.

## EVIDENCE-BASED APPROACH

Our memory care programs are routinely updated to reflect the latest Alzheimer's research findings and clinically proven care practices.

- A nationally renowned neurologist directs our individual assessments and care strategies
- Exceptional staffing levels, including 24-hour nursing care
- Robust life-enrichment programming developed specifically for individuals with memory loss makes life more enjoyable and meaningful for residents
- Advanced technologies optimize safety, security and clinical outcome tracking
- Electronic medical records facilitate communication with physicians and other healthcare providers
- Therapy and end-of-life care are provided through local home care and hospice partnerships

## PURPOSE-BUILT DESIGN

We focus on innovation in environmental design to help residents maintain their cognitive function for as long as possible. Serene spaces, private suites, natural light, circular paths and simple decor with memory cues combine to create a soothing, easy-to-navigate environment.

- Each small household provides specific services for its residents' particular memory disorders and stages of memory loss
- Common areas include our courtyard, library, large sunroom, family-style kitchens and living spaces that promote socialization and mobility
- Experts in environmental design consulted on the impact of light, sounds, color and textures in order to incorporate only safe, soothing surfaces, fixtures and furniture

## SPECIALLY TRAINED TEAM

At Ohio Living Ganzhorn Suites, we hire only the most experienced, compassionate professionals who embrace and celebrate our residents. Our care team includes Certified Dementia Practitioners® (CDP®) who passionately dedicate each day to providing life-enriching care to our residents. The CDP is an earned credential that provides families with the security and comfort in knowing that their loved one is being cared for by skilled, caring and competent professionals who have completed extensive Alzheimer's and dementia training.

"The journey I shared with my grandmother, for whom our community is named) inspired me to create a beautiful, state-of-the-art community offering those with memory loss a meaningful, dignified and fulfilling lifestyle."
