

What is a Life Plan Community?

Ohio Living Dorothy Love is a life plan community; that means our campus was designed to provide residents with the varying levels of care they may need as they continue to age in place. Our community isn't one size fits all - we have options to meet your needs both now and in the future, however that unfolds.

Independent Living

Our independent living ranch apartment homes allow you to fill your calendar with activities and social events, instead of home maintenance and upkeep. Your choice of one- and two-bedroom floor plans include maintenance of the home and furnished appliances, 24-hour emergency systems, transportation to community outings and all of our community amenities.

Independent living residents also benefit from having first access to additional levels of care, including home health and hospice, when they are needed.

Assisted Living

Assisted living at Ohio Living Cape May provides the care and support residents need to thrive. Assistance is available for activities of daily living, such as handling personal care needs, preparing meals and doing laundry. Care plans are customized for each resident's individual needs and preferences, and care is provided in a comfortable, home-like setting.

Long-Term Nursing Care

Those who need 24-hour personal and medical care receive customized services from our nursing team.

Short-Term Rehabilitation

Rehabilitation after hospital or surgery offers physical, occupational, speech therapy to help guests on their journey to recovery.

Memory Care

Our memory care program is designed to provide a home-like environment to diminish anxiety and lessen confusion for those with early memory loss.

Aquatic Therapy

The Sargeant Family Center for Aquatic Therapy & Rehab helps patients increase their physical fitness while putting less strain on their joints.
